WHAT WARS COST.

Millions of Trensures and Lives Sacri-

ficed to Man's Evil Passions,

From the Sun Francisco Chronicle,

In time of peace the statisticians

count the cost of wars in men and

money, which does not seem, however

to have any effect whatever in the way

of prevention. The fact is, nelther

povernments nor people want war

the abstract, though there always exist latent joulousles and hatreds and the

desire for advantages which war alon-can bring that render it possible at any

moment. You cannot make governments count their dead beforehand,

though it is easy enough to count then

afterward, while as for the prospective

debt, a nation assumes it in advance as

According to the estimates of French

and German statisticians there have

perished in the wars of the last thirty years 2,250,000 men, while there has

been expended to carry them on no less than the inconcelvable sum of \$15,000,-

36,000 died of sickness, accidents or suicide, and 20,000 in German prisons,

given aggregate. The sick and wounded amounted to 477,421, the lives of many

shortened by their illness or injuries. According to Dr. Roth, a German

authority, the Germans lost during the war 60,000 men killed or rendered in-

being the excess of expenditure or of the material losses over the \$1,250,

000,000 paid by France by way of in-

ralld and \$600,000,000 in money, this

Dr. Engel, another distinguished

German statistician, gives the following

as the approximate cost of the principal wars of the last thirty years: Crimean

war, \$2,000,000,000; Italian war of 1859.

\$300,000,000; Prusso Danish war of

1864, \$35,000,000; war of the rebellion North, \$5,100,000,000; South, \$2,300,

\$230 000 000 Russo-Turkish war \$125

000,000; South African wars, \$8,770,

000; Afghan war, \$13,250,000; Servo-Bulgarfan war, \$176,000,000. All these

wars were murderous in the extreme. The Crimean war, in which few battles

feught, cost 750,000 lives,

10,000 less than were killed or died o

their wounds, North and South, during

the war of the rebellion. The figures, it must be remembered, are German,

and might not agree procisely with

The Mexican and Chinese expeditions cost \$200,000,000 and 65,000 lives. There

of 1850 and the war between Prussla and Austria. In the other wars the loss

of life was relatively less, which did not make either the men or money

s but a part of the accounting, since it

toes not include the millions expended

Washington, D. C. WASHINGTON, D. C., Nov. 6, 1890.

SUNSHINE PROM CUCUMBERS. The editorials and beadlines of the

Republican organs on the day before, and the day of, the election, when read In the light of the result are as formy as a dog fight. For instance the Buston Zressier en Tuesday afternoon deel sted in big black type, "Sanshine and Vic tory for Republican Tickets."

The New York Tribune on Wednes day morning declared that the result sustained the new Tariit bill.

But the most amusing paper was the New York Press on Wednesday, had McKishny elected, and headed the duma with a rooster and embellished it with a picture of the Protection Naroleon. Then it announced that Indiana does nobly," and that "the Republicans gain four Congressmen in Hannmon's State." Then it had Cannon re elected. It carried the New York Assembly by an Increased Recubilcan undority. Above all it had DELAMATER elected by 20,000 to 30,000 municity.

So much for the news columns of the Press, Editorially it declared that. Congress is close, meaning the Fiftysecond, not the Fifty first. In a little yawp, headed The Republican Keystone," It said

The Democratic campaign of vitipera-tion in Parmsylvania came to a sudden and disastrons end when Mr. Blaine gravely swept it aside and disclosed behind it the scheming free traders. Pennsylvania has gone Republican again by a large off rear reasonly, and remains the keystone of the carry, as it is the Keystone of states. The recreative of state will come in for a large chare of credit for this handsone result, but it is due as well to the starling Republican it is due as well to the sterling Republican-ism and protectionism of Pennsylvania

For ability to extract sunshine from cucumbers commend us to these Re publican organs.

# TIDAL WAVES.

Twice since the war the country has voted so heavily against the dominant party that the result has been known as a "tidal wave." The first time was in 1874, when even Massachusetts. elected a Democratic Governor, and the National House of Representatives was overwhelmingly Democratic. The second was in 1883, when Pennsylvania, as well as Massahusetts, went Democratic, and the Republican party in the dark waters of defeat. The Democratic party has gained the greatest victory it ever won in an off year. It carried Massachusetts, Pennsylvania, Michigan and Wisconsin. The States of Iowa, Kansas, South Dakota and Nebraska are in doubt, with the chances favorable to the Democracy.

Altegether it was a great victory, such an one as justifies such epith its as "tidal wave," "landslide," "cyclose," "avalanche," and so on. It is curious to note that these post-bellum tidal waves have occurred at Intervals of eight years-1874, 1883, 1890.

Two years after the first the Democrars carried the doubtful States of New York, Connecticut and Indiana. These with the "Solid South" elected Mr. Trains President, but he was cheated ut of his success by the Electoral Com-

Two years after the second tidal waxe the Democrats again carried the same doubtful States and the "Solid Son b. and elected Mr. CLEVELAND Proceed. His title was not disputed. Will bistory repeat Built think it is mighty apt to do that very

shing. "LOOKING FUNTHER BACKWARD," by ARTHUR DUDLET VINTON, formerly managing editor of the "North American Review," is a novel the Incidenta of which, laid in the twenty-first century, are deploted to show the demeralizing effects that would follow the adoption of the Nationalist theory of EDWARD BELLAMY. The author points out the radical loss of ladividual ism and independent manhood that would follow the long continued existence of the BELLANY form of government, and believing the poet's theory that "love rules the camp, the grave, weaver in a common that will make

HE REARLY MISSED IT.

Exciting Experiences of a Newspaper Man on His Wedging Trip

COUNTY AND THE VICTOR When a voting newspaper tean wa hand, and the dalate violet and tomarried a shoot time ago his arrangemeats at the office were such that it modest filly have often opened for was impossible for him Just then to go away on the usual bridal tour. "Nevet that ever led to real romance then wound up in a wedding. Eighteen mind, dear," said he to his wife, "we will have our tour later, and it won't be so bad after all, for we will have all the more money then to enjoy it with. The years bride was semewhat dis appointed, naturally, but was happy bone life with her husband in cosy

At last the young man got a vacation and made arrang ments for the nur without having taken which no bride ever could be supremely happy. The trunks were being proded when the husband handed his wallet to his wife. saying: "You had better takes are of the wire, saying: "You had better takes are of the dear. All our money is in it and it will be safer with you than with me." The wife was wonderfully pleased at e great financial trust reposed in her hould pick her becket of the treasure Her husband had gone out to arrange for a carriage, and the bride, hoping to do a mething that would be regarded especially prodeut, placed the wallet in the bottom of the trunk containing a lot of dresses and other things. This happened to be a trunk that was to g as excess bargage and was called for in advance of the rest of the luggage The trut k was sent away and later the regular baggage wagon came around

or the rest of the luggage. The young couple drove to the station where the young man said: 'Let me have the wellet and I'll go buy the tickets." The bride turned pale, then red, and at last began to cry. "I put it in the extra trunk," she sobbed, "so no ne could steal it from me."

'The deuce!' exclaimed her husband who was in a serious dilemma. He soothed his bride, however, saying it would come out all right. Hurrying to the baggage room he found that the trunk had gone by express an hour be-fore, checked through to Niagara Falis, as had been arranged for. The intention had been to save expense by send ing the extra baggage through to Ni agara Palls, as it was not needed at once the couple desiring to spend a day of two at other polots not so far away. The young man had only some small change left. Leaving his wife at the station he rushed down town to the office and explained affairs to the cashler, who gave him the money needed to carry out his plans. The tour began with a later train and the wallet was recovered all right The cashler thought the story too good to keep, and when the young man came back it was always his turn "to treat" for a week.

# SACRED NUMBERS ODD.

Probable Resson for One Superstition Among Gamblers

From the Educated America Sacred numbers are always oil Hence may arise the modern superstition among gamblers that there is luck to odd numbers. Hut among the ancient heathens, also, even numbers were shunned, because each can be divided into two, a number that Pythagoras and others denounced as the symbol of death and dissolution and evil augury

generally. The antique worship of mystic numbers still shows its after effect in various popular superstitions. For lastance, the seventh son of a seventh son (called in France a marcon) is reputed to possess singular powers of healing, and even intelligent people still hold to the falincy that young animals born blind will open their eyes on the ninth day. The truth is that the blindness period of pupples varies from ten to sixteen days, and that of kittens to sixteen days are sixteen days.

from six to twelve.

The frequent assertion that "colds" will run their natural course in nine days is equally erroneous. A slight | enough to bring the number up to the entarrh, characterized by all its unmistakable symptoms, may come and depart in three times twenty-four hours, while chronic colds are often as per-sistent as their cause, and may worry a whole family from Christmas to the season of open windows. Country experts in the phenomena of rables are apt to assure the victim of a snapping ur that the bite of a mad dog will show its effect on the seventh day, after which time (sometimes extended to the ninth day) the dread of evil consequences may be dismissed; but the truth is that the irus of hydrophobia may remain latent

r more than five years. The old idea that man changed his body entirely every seven years is part of the same general fallacy. Medieval physiologists were fond of noting that seven months is the least in which a child may be born and live, that the teeth spring out in the seventh month and are renewed in the seventh year, that be becomes a youth at twice seven. at four times seven is in full posse of his strength, at five times is fitted fo the business of the world, at six time seven becomes grave and wise, onever at seven times is at his apogee al eight times seven in his first cul-macteric, and at nine times seven in his grand climacteric

BALTIMORE STORE,

4 and 6 WEST BALTIMORE STREET.

Which Told the Truth!

James Gallagher, the keeper of a sa-

oon at the corner of Seventh street and

Whitney avenue, was charged in the

Police Court to-day with having kept

soldier, going across the street with a bucket of beer. He summoned him to appear in court to-day. He did so and testified that he paid for it. Two other witnesses who were there said that he

was given the beer. The case was con-

tion of other witnesses, both in behalf of the Government and the defendant.

Got the Wrong Woman,

There seems to be some mistake in

the identity of the colored girl named

Mary Frances Johnson, now doing a

term of ninety days at the farm. She

pleaded guilty to vagrancy without

knowing what she was doing. Officer Fifield, who made the arrest, told Judge

Miller that he was satisfied that the wrong woman was locked up. Bertle Johnson yesterday afternoon open'y
